

This was our 2nd time to play the Heavy Days in Doomtowntown Festival. We were the last band in the smaller hall at 23 on the Sunday night but still a great core crowd of very enthusiastic fans filled the hall for a very heavy set. It was a great honor to have my friend Tom Sutton from Church of Misery jamming with us. He and Stefan had great communication and this lead to some amazing guitar jams. Enjoy...

Recorded on an Edirol R-09 with internal microphones by Dr. Space.

The players on this night were: Dr. Space- Synths, Stefan- Guitar, Tom- Guitar, Thomas- bass, Jesper- Drums
