

Improvised Electro-Jazz-Funk-Space Rock

This was the first of two gigs in Hamburg in the same weekend. This was a very special show taking place on a small boat with only 60 tickets for sale. It was a bit difficult to set up and play and the sound was very special but the band and the audience had an amazing time as the boat sailed around the harbor in Hamburg. Very cool.. The recording is not great but you can feel the energy....

The band on this night was: Dr. Space- Synths, Nick- Guitar, Jocke- Guitar
Jiri- Bass, Birk- Drums, Mogens- Keyboards

Recorded on an Edirol R-09 using Audio Reality microphones in the ceiling of the boat by Dr. Space.

CD1- Set I 54:08
Soundcheck Jam 12:33
Sailing the Seas of Neptune 36:57
Sound adjustment and Intro 4:38
