

Improvised Electro-Jazz-Funk-Space Rock

This was my 50th birthday party and we had the pleasure of hearing SumoSun (debut Concert), ILDHU, and the Carpet Knights (1st show in 4 years) play before some of each of the band members joined in for an ØSC jam. It has been a some time since PIB joined us on drums and he pounded the shit out the kit and he really dominates the recording when he is playing. Some very cool guitar, grooves and spaced out jams. Enjoy...

Audience recording using an Edirol R-09 and Audio Reality microphones by Dr. Space.
